

## Ballkaddie ready for action

**THE Ballkaddie is an ingenious new device that attaches to your bag enabling you to store, carry and access balls more easily.**

The design is both simple and durable. Three balls can be stored and you can very quickly and easily select a replacement ball by pulling the release trigger - a fast, one-handed action.

The ball is ejected in to the player's hand and the player is ready for the next shot without

time delay or loss of focus.

The design is available in three colours and is ideally suited for the application of a club or corporate logo.
